

SKYBIRD

Electronic Voltage Stabilizer

100% COMPLETE SATISFACTION

(AN ISO 9001:14001: 2015
CERTIFIED COMPANY)

SKYBIRD

Electronic Voltage Stabilizer

SKYBIRD is an Indian leading brand that manufactures high-quality electronic voltage stabilizer. The company harnesses the latest technology and provides high quality products

Features

- ★ An electronic circuit ensuring positive switching of relay contact which is making it more reliable and durable
- ★ Heavy-duty Transformers with high-class varnish with vacuum system ensures less heating and minimum energy losses
- ★ Outer cabinet made with a special sheet with 6 stage pre-treated powder coating
- ★ Quality components with high-reliability promises maximum safety
- ★ Rigorously tested as per IS standards
- ★ All models available in Copper & Aluminium

Specifications

- ★ Working Range - 170 - 270 Volts
160 - 260 Volts
150 - 270 Volts
140 - 280 Volts
130 - 280 Volts
110 - 280 Volts
100 - 280 Volts
80 - 270 Volts
60 - 270 Volts
- ★ Capacity - 0.5 KVA to 10.0 KVA
(Other specifications available on request)
- ★ Inverter Model also available
- ★ OPTIONAL FEATURES :
Low & high voltage trip with time delay relay

FOR AIR CONDITIONER

FOR REFRIGERATOR/DEEP FREEZER

FOR MAIN LINE
